ATC SYSTEMS APPOINT BUSINESS DEVELOPMENT ASSISTANT

ATC Systems was founded in 1984 by the current Managing Director Mr. Don Anderson to design and manufacture specialised test equipment for the electronics industry.

The Company's principal area of expertise lies in 'Electronic Contract Manufacture' providing a flexible manufacturing philosophy, understanding the individual requirements of all our customers needs and delivering products and services that meet our customer's expectations. We are able to provide an excellent basis for a long and successful partnership. ATC Systems are proud of their ability to deliver a competitive Electronic Contract Manufacturing Service and it is our aim to offer a fully integrated service to our customers from prototyping, pre-production trials, and low volume batches to scheduled contract Orders. Our commitment in delivering products to the highest possible standard is supported by our investment in the training and development of our people

Due to continued success ATC Systems are delighted to announce the appointment of Wendy Hutcheson to the role of Business Development Assistant. Wendy brings a wealth of experience to this position, having previously worked in a similar role within the Construction Industry.

One of ATC Systems strengths is our ability and desire to build strong communication links with our customers ensuring that our after sales service is as good as our pre-sales; with this in mind Wendy will be involved in the day-to-day business of establishing and maintaining business relationships and increasing customer satisfaction. Wendy will also provide a Sales & Marketing function to the Business Development Team.

ATC Systems understand what it takes to be a successful Electronic Contract Manufacturer with our emphasis on exceeding our customer's needs and expectations not just meeting them. If you are interested in building a new supplier partnership or wish to receive our Company literature **contact Wendy on 01592 777526 or if you prefer email: wendy.hutcheson@atcsystems.co.uk**
